

01.

THE OPPORTUNITY

Puzzle Partners (Puzzle) was engaged to transition 645 television broadcast staff, in Melbourne, Adelaide & Perth, to three new sites, without disruption to network programming. Studios for two of the new sites were also visible from the street, so everything had to be perfect for the 'day one' morning shows and the public 'gallery'.

Perth teams had the added complexity of moving into the CBD, where there were restrictions on private vehicles and limited parking. Public transport was a viable option for people who worked 'regular hours', but timetables didn't allow for those working early mornings or late evenings.

Sets, rigging, lights, sound equipment, staging, cameras, outside broadcast facilities, workplace furniture and technology, all needed to be moved seamlessly, within a limited window - after the final evening newscast, before the 5.00am morning show in Adelaide and Perth. And without disruption to 24 hour programming in Melbourne.

As ever, we were up for the challenge.

02.

OUR APPROACH

precision planning and partnership with production teams and crew

Puzzle worked in partnership with network crew and production teams to deliver the following:

- Detailed move sequence + run-sheets, planned to the minute
 - Plans for six move phases, across three sites, late night, so as not to disrupt programming
 - Recruited and managed specialists removalists to handle sensitive equipment
 - Detailed relocation packs and move checklists, to help staff prepare for the move
- Negotiation with councils for fleet vehicle parking, removalist access to sites and CBD, out of hours
 - Developed travel management plan for staff transitioning to public transport
 - Negotiated with nearby carpark for 'out of normal hours' parking deals for staff

03.

THE RESULTS

zero programming disruption

- The logistically complex move was delivered without disruption to programming
- Morning shows aired without hitch, in full view of public street gallery

This was just one of our 1000+ workplace adventures. We'd love to help you with your next adventure!
